

# Kalobe

Kalobe is 15 years old. Here's what he would like you to know about him:

---

**Some of my favorite things:**

Riding a bike, playing and watching sports, fishing, boating, swimming, listening to music, being outside, playing board and card games, and telling stories.

---

**Things I do not like:**

Cleaning my room, doing laundry, and I struggle when people want me to follow directions.

---

**My favorite foods:**

Pizza and Chicken. I am not that picky!

---

**Activities I enjoy:**

I like to be outside playing all different kinds of sports and activities. I like being involved in getting things done at school and at the house.

---

**What I want in a family:**

I want a family that has animals, that lives in the country, that plays games, and that can take care of me. I need a family to know that I need to take a breath, drink water, take space and not yell when I am angry.

---

**What we want families to know about Kalobe:**

Kalobe has transitioned from a residential placement into a foster care setting. He receives developmental disability services. Kalobe has a team wrapped around him for support and a family will need to be active participants in the team, including attending any therapeutic activities with him when needed. Kalobe will need a patient family to keep him safe and provide him with unconditional care.

---

**What we are seeking in a family for Kalobe:**

A family willing to be part of his team as Kalobe grows and develops. A high level of supervision is needed due to his developmental and special needs to help him make the right choices, understand his actions, and to also help him with basic living needs
